

“INTIFADA”

literally means uprising

but practically
means this...

Do we really want to “globalize the intifada”?

- *During the second intifada suicide bombers killed 1137 Israelis including 119 children in attacks like the one pictured above.*
- *How do you think your Jewish neighbors feel when they hear calls for Intifada?*

Please keep our communities a safe environment by choosing to use slogans that are not inspired by violence
